## **AWARDS/HONORS**

### **3<sup>rd</sup> PLACE AT GlobalHack VI**

**November 2016**

Sponsored by GlobalHack in St. Louis, Missouri

- 3rd place college division out of 1,004 checked-in participants at GlobalHack VI
- Team developed a Homeless Management Information System that allows agencies like St. Patrick Center to manage homeless users, auto update client urgency, view recommended services, and track "at risk" clients. From the homeless person perspective, they are allowed to see shelters in the area with bed count, mini description, and location

### **1<sup>st</sup> PLACE AT GLOBALHACK IV**

**June 2015**

Sponsored by LockerDome in St. Louis, Missouri

- 1st place out of 400+ registered individuals at GlobalHack IV in St. Louis Missouri
- Team consisting of developers, designers, and entrepreneurs competed over a weekend developing a new publisher tool to better engage and activate a publisher's audience, on both lockerdome.com and through an embedded widget on the publisher's own site

### **1<sup>st</sup> PLACE AT NSBE ANNUAL HACKATHON**

**March 2015**

Sponsored by Google Inc. in Anaheim, California

- Team developed a small application called "inRange" that allows you to hover over a geographical location and get a feed of tweets from people tweeting in a 25-mile radius
